

Cevolani PVR 490 BA

flanger ● seamer

Pre-owned combination machine comprising two carousels, with 8 stations each. The special thing with the flanger is the fact, that it is a 'swing' flanger, also known as 'spy' flanger, which can work with both very thin and hard tinplate. The flanging heads are moving like a swashplate, shaping always is done only on a part of the circumference, while the heads are moving. The seaming station is of standard roll- seamer design, and closes the lower end.

Technical specifications
