

Ocsam TP 1001 GP

robot

Ocsam Cepak transfer system feeding the blank magazine of the canbody welder with cut blanks from the slitter. Thanks to its substantial reserve capacity for blanks, the transfer unit can compensate for short upstream or downstream production interruptions, thus guaranteeing non-stop operation of the production line. Can size is Ø 99 x 129 (H) mm.

Technical specifications

CazProductNumber CPN	6683
Name	Ocsam TP 1001 GP
Tooling	99 x 129 mm
Year of Construction	1985
